Technology Requirements for Online Learning

Check out [About Online Learning](#) for details on technology requirements for this program, including minimum computer specifications. It is recommended that computers are PC's that support Windows 10 and Microsoft Office Suite 2016 or 2019 operating systems. We do not recommend the use of Chromebooks, Apple products, or tablet-style devices, as they may not be compatible with the required applications of some courses. Stable internet connections are also required for online learning components.

The estimated cost for a new computer that meets the minimum specifications is \$1,000.00. Students must have access to a printer while on Practicum.
