About MITT

MITT is a post-secondary institute offering industry-driven, student-focused education in the areas of applied business, design and manufacturing technologies, health care, human services, information and communication technology, and skilled trades. We provide affordable, timely, skills-based education for learners seeking career entry and those looking to acquire relevant, in-demand competencies at any point in life.

Mission

To be an education provider of choice in Manitoba, a catalyst of success for students and industry, and a nimble innovator, driving Manitoba's economic future.

Vision

To support Manitoba's economic, social, and technological progress through industry driven and student focused education that advances learners of all backgrounds and identities.

Values

Student Focused: Encouraging the personal and professional growth of individuals and their pathways to employment in a student-centred environment.

Academic Excellence and Innovation: Striving for excellence and high standards in technical education, and encouraging innovation, creativity, and entrepreneurship.

Respect and Inclusion: Embracing diversity by providing our students, staff, and partners with an inclusive, safe, and respectful environment.

Employee-Centred: Valuing, respecting, and investing in our faculty and employees.

Effective Management: Ensuring fiscal responsibility, accountability, and corporate social responsibility.

Partnerships: Building partnerships with families, communities, industry, business, government, and other educational institutions.

Industry Driven: Reaching out and responding to industry and the needs of the labour market with flexibility.

Land Acknowledgement

MITT is situated on Treaty 1 land and the traditional territories of the Anishinaabe, Cree, Anisininew, Dakota, and Dene peoples and the homeland of the Red River Métis. We honour the sacredness of these lands and waters and dedicate ourselves to reconciliation and partnership today and in the future.

Introduction

Purpose of this Guidebook

This guidebook was designed to help you navigate your studies in the Industrial Mechanic/Millwright Program and support your academic success. It includes program-specific information such as graduation requirements, progression requirements, and course-eligibility requirements.

Welcome Message from the Dean

On behalf of faculty and staff, I am excited to extend a warm welcome as you start your journey here at MITT. As the Dean, Skilled Trades and Technology, it is my privilege to welcome you into our learning community.

As you attend our campuses, you will become part of a diverse and vibrant community of individuals that are passionate about learning, personal development, and making a positive impact in Manitoba. We strive to create an environment that fosters academic excellence, personal growth, and the exploration of innovative ideas.

I hope your time at MITT is one of immense growth, memorable experiences, and the beginning of lifelong connections. Thank you for choosing the Manitoba Institute of Trades and Technology and I wish you all a successful and fulfilling academic year.

Sincerely,

Frank Gallo

Dean, Skilled Trades and Technology

Program Team

The Industrial Mechanic/Millwright program team consists of:

Mike Williams	Instructor	mike.williams@mitt.ca
Robert Jones	Instructor	robert.jones@mitt.ca
Patrick Taggart	Instructional Assistant	patrick.taggart@mitt.ca
Dwayne Sayers	Work Integrated Learning Officer	dwayne.sayers@mitt.ca
Frank Gallo	Dean	frank.gallo@mitt.ca
Dustin Blackwell	Program Manager	dustin.blackwell@mitt.ca
TBA	Academic Coordinator	

Program Overview

Industrial Mechanic/Millwright is a 10-month certificate program which is accredited by Apprenticeship Manitoba. It consists of 14 courses. One of these courses is Industrial Maintenance Technician (Work Practicum), which is an opportunity for students to apply their knowledge and skills during a four-week work placement.

Program Delivery

This program is delivered entirely on campus, except for the work experience, which occurs at an industry partner's place of business.

Courses

There are 14 courses in the Industrial Mechanic/Millwright program. Refer to [Table 1: Courses](#) for more information.

Course Outlines

Students are provided with a course outline for each course, which is posted to MyLearning. Course outlines contain important academic information such as a summary of the course's topics, assignments, and deadlines. Students are encouraged to carefully review course outlines and contact their instructor if they have any questions.

Course Prerequisites

What is a course prerequisite?

A prerequisite is a type of course eligibility requirement that a student must successfully complete before being eligible to take a specified related course. For example, suppose that Intermediate Math (MATH-200) has a course prerequisite of Basic Math (MATH-100). This means that a student must successfully complete MATH-100 before they are eligible to take MATH-200.

What happens if a student does not meet a prerequisite?

If a student does not meet a prerequisite, they will not be eligible to proceed into the associated course. Not meeting a prerequisite may result in a gap in studies and additional tuition costs.

Table 1: Courses

This table presents the courses in the Industrial Mechanic/Millwright program.

Course Code	Course Name	Course Description	Prerequisite(s)
IMM-400	Millwright Safety and Orientation	This course introduces students to industry related health and safety requirements. Students will also gain insight into the Millwright trade and appropriate communication methods.	n/a
IMM-410	Tools and Fasteners	This course introduces students to the safe and effective use of trade related hand and power tools. Students will also learn how to use basic measurement and precision measuring devices.	n/a
IMM-420	Prints, Drawings and Schematics	This course focuses on basic print terminology and principles. Students gain the knowledge and skills required to extract basic information from prints, communicate this information, and develop basic sketching techniques.	n/a
IMM-430	Mathematics for Millwrights	This course explores the mathematical knowledge required within the industrial mechanic/millwright field and includes a study of ratios, proportions, and the application of mathematical concepts.	n/a
IMM-440	Rigging, Lifting and Access Equipment	This course allows students to explore various types of lifting and access equipment and how to safely and properly work with each.	IMM-400
IMM-450	Welding 1 and Metallurgy (Theory)	This course covers the appropriate use of oxy-fuel equipment in brazing, soldering, cutting, and welding operations.	n/a
IMM-460	Welding 1 and Metallurgy (Lab)	This lab provides students the opportunity to apply their understanding of topics covered in Welding 1 and Metallurgy (Theory) with hands on experience.	IMM-400 and IMM-410
IMM-470	Lathes and Mills (Theory)	This course provides students with the knowledge and skills required to use and maintain lathes, mills, and drills.	n/a

Course Code	Course Name	Course Description	Prerequisite(s)
IMM-480	Lathes and Mills (Lab)	This lab provides students the opportunity to apply the topics covered in Lathes and Mills (Theory) with hands on experience.	IMM-400 and IMM-410
IMM-500	Welding 2 and Metallurgy (Theory)	This course covers Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), and Gas Tungsten Arc Welding (GTAW) welding equipment and the appropriate application and maintenance of each.	IMM-450
IMM510	Welding 2 and Metallurgy (Lab)	This lab provides students the opportunity to apply their understanding of topics covered in Welding 2 and Metallurgy (Theory) with hands on experience and a focus on using SMAW equipment.	IMM-400, IMM-410, and IMM-450
IMM-520	Alignment	This course focuses on proper use, maintenance, and troubleshooting of alignment equipment.	IMM-400 and IMM-410
IMM-530	Millwright Capstone Project	Students will complete a final project using the knowledge gained throughout the Millwright program.	Successful completion of all preceding courses.
IMM-540	Industrial Maintenance Technician	The Work Practicum is the key component of this program and an integral pathway to transition students from the MITT learning environment to the workplace. Practicum is an unpaid, work integrated learning component of MITT technical training. It offers students the opportunity to gain industry-relevant experience and to build on their technical skills while increasing confidence, employability, and job readiness.	Successful completion of all preceding courses.

Course and Program Schedule

A course's location and schedule are stated on its course outline. A student can check the start and end dates of each course in their program by using the MITT Student Portal: <https://mitt.ca/current-students/student-portal>

The college's Academic schedule, which includes information about campus closures and other important dates, can be found on the MITT website: <https://mitt.ca/current-students/academic-schedule>

A visualization of this program's usual course delivery sequence is presented in [Table 2: Course Delivery Sequence](#). Note that while this visualization provides the program's usual delivery sequence, it is subject to change.

Graduation Requirements

The Academic Standards (AC-2-10) policy defines a **Graduation Requirement** as “a program- specific academic requirement that a student must meet to graduate from a program.” A common example of a Graduation Requirement is having to successfully complete each course in a program. A student who does not meet one or more Graduation Requirements by their program's scheduled end date is ineligible to graduate.

The Industrial Mechanic/Millwright program's Graduation Requirements are listed in [Table 3: Graduation Requirements](#).

What happens if a student does not meet a Graduation Requirement?

If a student does not meet a graduation requirement, they will be ineligible to graduate. This often means that a student will need to repeat a course or take some other action to address the missing graduation requirement. This may result in a gap in studies and additional tuition costs.

For example, assume that a Graduation Requirement is to successfully complete a course. If a student does not successfully complete the course, they will need to repeat the course to be eligible to graduate.

Table 2: Course Delivery Sequence

This table presents the course delivery sequence in the program.

Term 1A

IMM-400	Millwright Safety and Orientation
IMM-410	Tools and Fasteners
IMM-430	Mathematics for Millwrights

Term 1B

IMM-420	Prints, Drawings and Schematics
IMM-450	Welding 1 and Metallurgy (Theory)
IMM-460	Welding 1 and Metallurgy (Lab)

Term 2A

IMM-440	Rigging, Lifting and Access Equipment
IMM-470	Lathes and Mills (Theory)
IMM-480	Lathes and Mills (Lab)

Term 2B

IMM-520	Alignment
IMM-500	Welding 2 and Metallurgy (Theory)
IMM-510	Welding 2 and Metallurgy (Lab)

Term 3A

IMM-530	Millwright Capstone Project
IMM-540	Industrial Maintenance Technician (Work Practicum)

Table 3: Graduation Requirements

To graduate from the Industrial Mechanic/Millwright program, a student must meet the following Graduation Requirements:

1. Successfully complete each course with a minimum mark of 50%.
2. Achieve a minimum overall program average of 60%.
3. Receive a grade of P (Pass) in Industrial Maintenance Technician (IMM-540).
4. The minimum performance required to achieve a Manitoba Apprenticeship Accreditation is a 70% cumulative program average.

Progression Requirements

The Academic Standards (AC-2-10) policy defines a **Progression Requirement** as “a program- specific academic requirement that a student must meet to remain enrolled in a program.” A common example of a Progression Requirement is to successfully complete a certain course. A student who does not meet a Progression Requirement is withdrawn from their program.

The Industrial Mechanic/Millwright program’s Progression Requirements are listed in [Table 4: Progression Requirements](#).

Work Experience

The Industrial Mechanic/Millwright program has a four-week unpaid work experience. It provides an opportunity for students to apply the theoretical knowledge and practical skills that they've acquired throughout the program to a real-world setting.

A work experience placement is not guaranteed. To qualify for a work experience, students must meet the requirements listed in [Table 5: Work Experience Requirements](#).

Table 4: Progression Requirements

To continue to progress in the Industrial Mechanic/Millwright program, a student must meet the following Progression Requirements:

1. Meet the minimum passing grade of 50% in each course.
2. Successful complete any pre-requisites before continuing into the next scheduled course.
3. If a student does not receive a minimum grade of D (50%) in a course, the student may be withdrawn from the program.
4. Maintain a minimum overall program average of 60%.

Table 5: Work Experience Requirements

To be eligible to take the Industrial Mechanic/Millwright program's work experience credit (IMM-530), a student must meet the following requirements:

1. Receive a minimum grade of D (50%) in all preceding courses.
2. Maintain an overall average of at least 60% throughout the program.
3. Provide a valid co-op work permit or demonstrate that an application for a co-op/work permit was submitted within the first 4 weeks of the program (international students only).

Apprenticeship Accreditation

The Industrial Mechanic/Millwright program is accredited by Apprenticeship Manitoba. Refer to [Table 6: Requirements for Apprenticeship Accreditation](#) for the program’s specific accreditation requirements.

Apprenticeship FAQ

1. What is an Apprentice?

An “apprentice” is a new tradesperson (i.e., an apprentice) who learns a recognized trade under the supervision of an experienced tradesperson (i.e., a journeyman).

2. What is an Apprenticeship Training Program?

An “apprenticeship training program” is a work-based training program recognized and facilitated by Apprenticeship Manitoba. It usually consists of 80% paid on-the-job training and 20% classroom studies (referred to as “technical training”). Most apprenticeship programs are divided into 2-4 levels, where each level takes approximately one year to complete.

Upon successful completion of an apprenticeship training program an apprentice “graduates” and becomes certified as a journeyman.

3. How do I enroll in an Apprenticeship Training Program?

To enroll in an Apprenticeship Training program (i.e., become an apprentice), you must complete the following steps:

- a. Find employment in your recognized skilled trade with an employer who is willing to register you as an apprentice.
- b. Meet the minimum education requirements for your [recognized skilled trade](#).
- c. Apply to become an apprentice with Apprenticeship Manitoba.

Assuming your application is approved, you would then be registered in the apprenticeship training program for your skilled trade.

4. What is a Red Seal Trade?

A “Red Seal” trade is a recognized trade where a journeyman can receive a Red Seal endorsement by completing an interprovincial exam. Many people use the word journeyman and red seal interchangeably (e.g., a “journeyman welder” or a “red seal welder”), however, they are different. Someone can be a journeyman and not have their red seal endorsement.

For more information, refer to: <https://www.red-seal.ca/>

5. What is Level 1 Accreditation?

Level 1 Accreditation refers to formal recognition from Apprenticeship Manitoba that a student has completed the Level 1 technical training curriculum for their skilled trade. This means that if a graduate registers as an apprentice they would be exempt from the Level 1 in-class training.

Having Level 1 Accreditation helps a graduate find a job in their field and provides a head start towards becoming a journeyperson.

6. How do I earn my Level 1 Accreditation?

To achieve apprenticeship accreditation, students must complete their accredited program with an accumulative average of 70% or better in the trade subjects and level for which the program was accredited.

Refer to the [Apprenticeship Accreditation](#) section for the exact requirements.

7. Am I a Level 1 Apprentice once I graduate from the program?

No. A student who completes their program and who earns accreditation is Level 1 accredited, however, they are not a level 1 apprentice in their skilled trade. Refer to the previous question about how to [enroll in an apprenticeship training program](#) (i.e., become an apprentice).

8. How does Apprenticeship Manitoba know I am accredited for Level 1?

If you achieve accreditation, an accreditation code will appear on your MITT transcript. Include your transcript with your application package when you apply to become an apprentice with Apprenticeship Manitoba.

9. Does my Accreditation expire?

Yes, accreditation expires two years after your program's graduation date. You need to gain employment and be registered as an apprentice within two years of graduating to be able to use your accreditation.

10. Do I need to have Level 1 accreditation to get a job and register as an apprentice?

No, you do not need to have Level 1 accreditation to get a job and register as an apprentice. Even though having Level 1 accreditation makes it easier to find a job, it is not necessary. An employer can choose to hire someone without accreditation, and if that employer is willing to register you as an apprentice, you can still enroll in an apprenticeship training program.

Table 6: Requirements for Apprenticeship Accreditation

To achieve Apprenticeship accreditation, a student must:

1. Successfully complete the accredited program with a minimum accumulative program average of 70%.
2. Gain employment.
3. Register as an apprentice within two years of graduating.

A student who meets these requirements will receive credit for Apprenticeship Manitoba Level 1 in-school technical training and 800 hours in the [Industrial Mechanic \(Millwright\)](#) Apprenticeship program.

Academic Standards

The Academic Standards (AC-2-10) policy establishes academic requirements that a student must meet to remain enrolled in, or graduate from, a program. An overview of important concepts from the policy, such as Academic Probation, Program Withdrawal, and Academic Suspension, are included in this program guidebook.

Academic Probation

What is Academic Probation?

The Academic Standards (AC-2-10) policy defines Academic Probation as “a student status that results when a student is identified as being at-risk of unsuccessful program completion.” A student receives a student status of Academic Probation if any of the following occur:

1. Upon completion of a course, the grade received is not sufficient for use as a Course- Eligibility Requirement (e.g., prerequisites) or Graduation Requirement.
2. Following a review of the student’s performance, an Academic Manager determines that the student is at risk of not meeting, or is unable to meet, a Graduation Requirement.

A student who receives a status of Academic Probation is:

1. Permitted to continue their studies.
2. Removed from any course for which they no longer meet the Course-Eligibility Requirements (e.g., prerequisites).
3. Subject to Conditions for Program Continuance.
4. Responsible for any additional costs resulting from the Academic Probation, including those associated with the established Conditions for Program Continuance.

What is the Purpose of Academic Probation?

The purpose of Academic Probation is to promote program recovery by implementing a structured process to review a student’s academic performance, provide referrals to on-campus and off-campus support services (where appropriate), and establish Conditions for Program Continuance.

Academic Suspension

What is Academic Suspension?

The Academic Standards policy defines an Academic Suspension as “a student status that results in a student being ineligible to continue in post-secondary studies for a period of eight months. Academic Suspension occurs when a student:

- Receives a student status of Required Program Withdrawal two or more times.
- Does not successfully complete the same course three times, or a Work-integrated Learning course two times.

A student who receives an Academic Suspension is:

- Withdrawn from their program, subject to the Withdrawal and Refund Policies.
- Given a status of Academic Suspension and is not eligible to apply to or study in any MITT post-secondary program for a period of 8 months.
- Subject to the tuition refund schedule, based on the start date of the Academic Suspension.

Program Withdrawal

What is Program Withdrawal?

The Academic Standards (AC-2-10) policy defines a Required Program Withdrawal as an administrative action that results in a college-initiated withdrawal from a program. A student receives a Program Withdrawal if any of the following occur:

1. A student does not meet a Progression Requirement.
2. A student on Academic Probation does not fulfill their Conditions for Program Continuance.

A student who receives a Program Withdrawal is:

1. Withdrawn or dropped from all their courses.
2. Withdrawn from their program.
3. Eligible to apply for Program Re-entry to the same program, or admission to another program.
4. Subject to the Tuition Refund Schedule, based on the effective date of the Required Program Withdrawal.

Note that a student may be subject to Program Withdrawal without first being placed on Academic Probation.

Grade Scale

MITT uses the following grade scale.

Letter Grade	Grade Point Value	Accumulated Evaluation Percentage
A+	4.5	90 – 100%
A	4.0	80 – 89%
B+	3.5	75 – 79%
B	3.0	70 – 74%
C+	2.5	65 – 69%
C	2.0	60 – 64%
D	1.0	50 – 59%
F	0.0	0 – 49%

Maximum Time to Complete

What is the Maximum Time to Complete the Industrial Mechanic/Millwright Program?

A student has a maximum of three years, starting from the first day of scheduled classes, to complete the Industrial Mechanic/Millwright program. A student who is at risk of not completing the program within this time limit is encouraged to meet with their program's Academic Coordinator.

Why does a Maximum Time to Complete Exist?

MITT's time limits are designed to be flexible enough to accommodate various challenges that could delay a student's program completion (e.g., a course failure or personal circumstances), while at the same time, short enough to ensure that a student's skills and learning are current and up to date for the workplace.

Student & Academic Policies

Students are responsible for reviewing and complying with all Student and Academic Policies. MITT's policies are listed on the college website: <https://mitt.ca/about-mitt/mitt-policies>

Academic Integrity

The Academic Integrity (AC-1-4) policy defines what is academic integrity and provides examples of what constitutes grounds for academic misconduct. Students who commit academic misconduct are subject to disciplinary action, as defined in the Student Discipline (AC- 1-8) policy.

Accessibility

MITT is committed to creating a learning environment that meets the needs of its diverse student body. If a student has a disability, or thinks they may have a disability, it is strongly recommended that they meet with the Accessibility Student Advisor. More information about Accessibility Services, including contact information, can be found at www.mitt.ca/student-success/accessibility-services.

If a student does not have a documented disability, remember that other support services, including the Learning Support advisor, peer tutors, and clinical services are available through MITT Student Services.

Student Concerns and Appeals

If a student has a concern about a college service that is not related to assessment or instruction (e.g., admissions, facilities, or finance), they are encouraged to discuss their concern with the employee most directly involved. If the matter is not resolved, the student should then bring their concern to the appropriate department supervisor.

If a student has a concern related to their studies, such as assessment or instruction, they are encouraged to discuss their concerns with their instructor. If the matter is not resolved, the student should then bring their concern to their Academic Coordinator.

There is also a [Student Appeals \(AC-2-2\)](#) policy. Students are encouraged to speak with a student advisor to learn more about the appeals process at MITT.

Student Conduct

MITT seeks to provide students, staff, and partners with an inclusive, safe, and respectful environment. Our campuses consist of a diverse group of learners, including secondary students, domestic and international post-secondary students, and adult EAL learners.

MITT

expects all students, regardless of program, to conduct themselves in a safe and respectful manner.

There are many [Academic/Student policies](#) that relate to MITT's commitment to create a campus environment that is safe, inclusive, and respectful. Policies that relate specifically to student conduct include:

- Student Behaviour (AC-1-1)
- Student & MITT Expectations (AC-1-2)
- Drug and Alcohol (AC-1-5)
- Respectful Workplace, Harassment Prevention, and Non-Discrimination (CC-2)
- MITT Computer and Telecommunications Usage (IT-1)
- Sexual Violence (SV-1)
- Workplace Safety, Health, and Wellness (WSH-1)

Program-Specific Policies

There are program-specific policies in the Industrial Mechanic/Millwright program. These policies are listed in [Table 7: Program-Specific Policies](#).

Table 7: Program-Specific Policies

The Industrial Mechanic/Millwright program has the following program-specific policies:

Missed and Late Assessments

Students are required to submit each assessment item (assignment, project, etc.) by the deadline assigned by their instructor. Any assessment item not submitted by its deadline receives a mark of zero. An instructor may allow or deny student requests for extensions that do not exceed the course's end date.

An instructor, with permission of an Academic Coordinator, may grant an extension that exceeds the course's end date.

Late Arrival to Time-Limited Evaluations

Students are required to write time-limited evaluations (quizzes, tests, etc.) and to complete practical assessments on the date set by their instructor(s). A student who arrives late to a time-limited evaluation is not provided with extra time to complete the evaluation.

A student unable to attend a time-limited evaluation due to illness or compassionate reasons may request alternate arrangements. A student who requests alternate arrangements must submit a written request, prior to the test date, to the program's Academic Coordinator.

Attendance

Students are expected to arrive on time and to come prepared for class. The following penalties apply to absences, late arrivals or early departures, and being unprepared for class:

- A student receives a 2% deduction from their final grade for each absence that occurs in a course.
- A student receives a 1% deduction from their final grade whenever they arrive late or leave early in a course.
- A student receives a 0.5% deduction from their final grade whenever they come to class unprepared in a course. Examples of being unprepared include not having a required textbook, supplies, PPE, or hand tools.

Safety

Students are required to follow all safety requirements. Non-compliance may result in being required to leave the lab or shop area. A student who comes to class without the required PPE will not be allowed to participate and will be marked absent.

Mobile Device Usage

Mobile devices are not allowed in the class or lab areas unless authorized by the instructor. A student who uses a mobile device may be required to leave the class or lab and will have the Attendance Policy applied.

Language Use

In this program, the language used in learning activities (e.g., lectures, group activities, class discussion, and demonstrations) and assessments (e.g., assignments, tests, etc.) is English. To support an inclusive learning environment in this program, students are expected to speak in a common language so everyone can participate equally.

Working in the lab space

Safety

Students are required to follow all safety requirements. Non-compliance may result in being required to leave the lab or shop area. A student who comes to class without the required PPE will not be allowed to participate and will be marked absent.

Tools and Equipment

The Industrial Millwright program requires students to supply their own hand tools when working in the Millwright labs. Program instructors will review the supply list of requirements on the first day of class.

The program supply list is available in the link

below. <https://mitt.ca/current-students/program-information>

Technology Requirements

Online Tools

A variety of web-based technologies and tools may be used throughout this program, such as MyLearning, the Student Portal, and Microsoft 365. To be successful in your studies you will need to learn about, and become familiar with, these tools.

Information about these tools, including how-to guides on how to access them, can be found on the *About Online Learning* webpage: <https://mitt.ca/about-online-learning>

Technical Support for Students

Information on how to access technical support for various web-based technologies and tools can be found on the Student Accounts and Logins webpage:

<https://mitt.ca/current-students/student-accounts-and-logins-faq>

Cameras and Recording Devices

Unless otherwise indicated, online class sessions are not recorded for later viewing. Students should ensure they have a way to take notes. To comply with MITT policies and to protect student and instructor privacy, cameras and other recording devices are not to be used by students, unless authorized by the course instructor.

Campus Life

Student Services

The MITT Student Services team provides academic, personal, and career support to future and current students. Students are encouraged to meet with an advisor whenever they need help or have questions about how to be successful in their MITT program.

To learn more, refer to the Student Services webpage: <https://mitt.ca/student-services>.

Career and Employment Services

The MITT Career and Employment Services team works with students to prepare them for meaningful careers and connects graduates with employers. The Career and Employment Services team helps current students and alumni with:

- Resume and cover letter review
- Interview preparation
- Job search
- Career exploration

To learn more, refer to Career and Employment Services webpage: <https://mitt.ca/career-and-employment-services>

Student Life

The MITT Student Life team of staff and volunteers deliver a wide range of on-campus and online opportunities for students to connect with employers, make friends, build their work skills, and gain professional experience while at MITT.

Student Life works year-round to facilitate student and staff-led events, activities, and student groups to learn about other cultures, build community, and to network with future colleagues and employers.

To learn more, refer to the Student Life webpage: <https://mitt.ca/student-life>

Food Services

Food services are available at the Henlow, Pembina, and Scurfield campuses:

Henlow Campus: The Bridge Café offers hot breakfast, hot lunch, and afternoon snacks including grab and go items and an assortment of hot and cold beverages. This building is within walking distance of the Fultz Campus. Onsite microwaves and vending machines are available.

Scurfield Campus: Offers grab and go food options, an assortment of hot and cold beverages, and onsite microwaves and vending machines. This building is within walking distance of the Henlow Campus.

Pembina Campus: Offers grab and go food options, an assortment of hot and cold beverages, and onsite microwaves and vending machines. There are also several off-site fast food and dine-in restaurants nearby.

Public Transportation

All MITT campuses are accessible by public transportation. Route information is available on Winnipeg Transit's website: <https://winnipegtransit.com/>

Students can buy a peggo card (bus pass) directly from MITT. A valid student ID card must be shown at the time of purchase. Peggo cards are available for purchase at the Henlow and Pembina campuses.

Parking

Parking at MITT campuses must be paid at all times of the day. Parking is \$25/monthly with Impark or \$5/day with Hangtag.

Daily and monthly parking passes are available for the following campuses:

- 130 Henlow Bay
- 7 Fultz Boulevard
- 1551 Pembina Highway

For more information please visit: <https://mitt.ca/parking>

Knowledge Check

To be successful in your program, you should be able to answer the following questions:

1. How many courses are in my program?
 - a. What is a course outline?
 - b. Where are course outlines posted?
2. What is a course prerequisite?
 - a. Which courses have prerequisites?
 - b. What are those prerequisites?
 - c. What happens if a student does not meet a prerequisite?
3. What is a Graduation Requirement?
 - a. What happens if a student does not meet a Graduation Requirement?
4. What is a Progression Requirement?
 - a. What happens if a student does not meet a Progression Requirement?
5. What are the requirements to take the Work Experience credit? (if applicable)
6. What is Academic Probation? What causes Academic Probation?
7. What is a Program Withdrawal? What causes a Program Withdrawal?
