MITT Women in Technology Entrance Scholarships

MITT is proud to offer entrance scholarships to women entering fields of study and career paths where women have previously been underrepresented. Women who apply for any of the September 2021 technology programs listed below will automatically be considered for a Women in Technology entrance scholarship.

To be considered, future students must submit an MITT program application **no later than June 30, 2021.** Recipients are selected based on grade averages from the high school Math and English scores submitted with the MITT program application.

If you are a woman considering a career in technology, apply early and get a head start on your career training!

Eligible programs:
- CAD Technician
- Cyber Defence and Cloud Administration
- Graphic and Print Technician
- Network Systems Administrator
- Software Developer

Eligible Students:
- Students must be female/identify as female
- Full-time post-secondary
- Canadian citizen or permanent resident
